PLATFORM EXECUTIVE SUMMARY · REQUEST INFORMATION

PCN™

Executive Summary

PCN™ is a multi-tenant property compliance network. Each municipality, agency, or operator runs on the same underlying infrastructure under its own brand and policy — replacing the patchwork of disconnected inspection, certification, and documentation systems with a single auditable network.

Category & Positioning

Category: Regulated Compliance Network

Market Opportunity

Property compliance — healthy homes, inspections, certifications, and regulated documentation — is a multi-billion-dollar fragmented category dominated by paper, spreadsheets, and disconnected vendor tools. PCN consolidates the network.

Customer Profile

Municipalities, regulators, property operators, inspection bodies, and counterparties dependent on verifiable compliance records.

Revenue Model

- Tenant licensing fees per municipality / operator.
- Per-transaction certification and documentation fees.
- Premium analytics, reporting, and integration modules.

Competitive Advantage

- Multi-tenant network effects — every added tenant strengthens the underlying record.
- Built around real regulatory workflows, not generic case management.
- Auditable record-of-truth that no single tenant could build alone.

Development Status

In Development — tenant pilots and information requests open.

Roadmap

- Anchor tenant deployments under municipal brands.
- Network-wide certification interoperability.
- Open compliance analytics and counterparty integrations.

Place in the Ai Tech Intel Ecosystem

Every Ai Tech Intel platform is built to operate on shared infrastructure and to compound the value of the broader portfolio. AiC3™ is the foundational orchestration layer; Commodexia™, T.E.A.M.S.™, TeaVib™, PCN™, and Academy™ are independent revenue lines that benefit from — and reinforce — that foundation.
